

Steps for Accident Aftermath

Call 911 & EMS

You'll need to assess your injuries if possible and the injuries of your passengers. Then call 911 and EMS if anyone is seriously injured. The police will then create an accident report which has details of the incident and a diagram of the accident. Most importantly, swap insurance information with the at-fault-party. Be sure to also get the license plate number, name of the other driver, and contact information while you wait for the police to arrive.

Gather Evidence, Pictures, & Witnesses

This step is extremely important. Take lots of pictures from multiple angles of the accident scene and a video too if possible. Pictures provide proof of property damage to the insurance company. Look around for any traffic or security cameras which may have caught everything on video. Get names and numbers of eyewitnesses.

"We care and want to help you change the course of your life."

MORA LAW
PERSONAL INJURY ATTORNEYS

Our Services

→ Car Accidents

A motor vehicle accident is one of the worst experiences someone can go through, but we are here to help you get compensated for your injuries and help you onto the path to healing.

→ Slip & Falls

Property owners have a responsibility to maintain safe conditions on their premises. Slip-and-falls can happen at a store, hotel, gas station, and infinitely more places due to hazardous conditions on someone else's property.

→ Truck Accidents

The harm and fatal impact 18-wheeler accidents can cause are astounding. We relentlessly go after the insurance company and we offer you our empathy and care.

Do Not Apologize

We only represent plaintiffs (victims), which means the accident wasn't your fault. Apologizing can be a gut reaction, but do not make this mistake. This will effect your claim and can be used against you by the insurance company. Remember, your body is in shock and working off of adrenaline, which means you may be unaware of the full scope of your injuries until these feelings wear off. Be careful with what you say.

Call Your Insurance Company

Regardless of fault, go ahead and inform your insurance company that you've been involved in an accident. Answer honestly, but don't speculate. Do not speak with the at-fault-party's insurance company as it could damage your claim. This is when you would want to seek the service of a personal injury attorney.

Hire a PI Attorney

We will review your case free of charge and let you know if you have viable claim. As the victim, you're entitled to receive compensation for your medical bills and lost wages.. Again, we never represent the at-fault party. You don't pay anything unless we win your case!

**"We sympathize,
we empathize, and
we listen."**
